CDC supports and funds a national network of hemophilia treatment centers (HTCs). You can use the HTC directory to: Search for the names and contact information of hemophilia treatment centers and staff that are part of the federally funded HTC network

Hemophilia Treatment Center (HTC) Directory

Hematology, also spelled haematology, is the branch of medicine concerned with the study of the cause, prognosis, treatment, and prevention of diseases related to blood. It involves treating diseases that affect the production of blood and its components, such as blood cells, hemoglobin, blood proteins, bone marrow, platelets, blood vessels ...

Hematology - Wikipedia

INTRODUCTION. Fibrinogen plays a pivotal role in normal hemostasis as a substrate for conversion to fibrin, a support for thrombin generation and platelet aggregation, and a facilitator of wound healing.
