40 R. Thaler, Toward a positive theory of consumer choice important prediction in economics, has been shown to be negative even if

Journal of Economic Behavior and Organization I (1980)

The knowledge economy is the use of knowledge (savoir, savoir-faire, savoir-Être) to generate tangible and intangible values. Technology, and in particular, knowledge technology, helps to incorporate part of human knowledge into machines. This knowledge can be used by decision support systems in various fields to generate economic value.
